Full Stack Developer with 3 years and 4 months of experience in PHP, Laravel, Vue.js, WordPress, CodeIgniter, Shopify, and JavaScript. Skilled in building dynamic websites, e-commerce platforms, and scalable applications with a focus on seamless user experiences and efficient problem-solving.

Work Experience

Full stack Developer   Jan 2022 - Present
Cloud Analogy | Noida

Proven IT professional with expertise in PHP, Laravel,Vue.js, CodeIgniter, WordPress, Shopify, JavaScript, React.js and Next.js, recognized for delivering innovative and tailored web solutions. Successfully led multiple projects, driving business-focused results.

- Specialized in PHP frameworks (Laravel, CodeIgniter), WordPress, Shopify, Vue.js, and React.js, consistently delivering client-centered solutions.
- Spearheaded the development of dynamic and scalable web applications, utilizing a diverse tech stack to meet business requirements..
- Successfully integrated multiple APIs including DocuSign, Google Cloud Document AI, Microsoft Azure, and various payment gateways (PayPal, Stripe, Razorpay, Open Bank, Revolut), as well as e-commerce APIs. Additionally, created numerous custom APIs in Laravel and PHP to streamline business processes and enhance system functionality.
- Developed secure, high-performance back-end systems using PHP frameworks, ensuring seamless data management and API integration.
- Built and customized Shopify stores, integrating third-party apps and APIs to enhance e-commerce functionality and user engagement.
- Proactively incorporated emerging technology trends and innovative solutions into projects, fostering a collaborative team environment.
- Committed to ongoing professional development, continuously updating skills to stay aligned with the latest technologies and industry best practices in web development.

Projects

1. INVOPORT

Developed an e-commerce website using core PHP with extensive API integrations including DocuSign, Microsoft Online, Open Bank, and Google Cloud Document AI. Handled both front-end and back-end development, ensuring smooth user experiences.

- Integrated APIs for DocuSign, Microsoft, and Google Maps to enhance functionality.
- Improved UI with Vue.js, CSS, and Bootstrap for a seamless user interface.

Technologies Used:

Frontend: HTML, CSS, Bootstrap, JavaScript, Vue.js, Ajax
Backend: PHP, Laravel, Microsoft API, DocuSign API, Google Document AI, Open Bank API
Database: MySQL

2. Mango Semiconductors

Developed a full-stack **e-commerce platform** using **Laravel**, handling both front-end and back-end. Integrated **PayPal**, **Stripe**, **Razorpay**, and **6 e-commerce APIs** for seamless payment and order processing. Implemented **user login, registration**, and **account management** features.
Pioneered the development of a comprehensive website.
- Built and customized user-facing features like **Login**, **Registration**, and **Account Management** for seamless user experience.
- Integrated **6 e-commerce APIs** to optimize product management and order processing.
- Developed an intuitive front-end using **HTML**, **CSS**, **Bootstrap**, **JavaScript**, **jQuery**, and **Ajax**.
- Managed the back-end with **Laravel** and **MySQL** for efficient data handling and storage.

Technologies Used:

- **Frontend**:HTML, CSS, Bootstrap, JavaScript, Ajax, Vue js
- **Backend**: PHP, Laravel
- **Database**: MySQl.

3. Rapisurv

Developed the back-end of a Laravel-based e-commerce platform for construction services, focusing on tender and bidding functionality. Worked on bug fixes and data uploading, ensuring smooth operations.

- Created APIs (CRUD) for managing **tenders**, **bidders**, and **invitations**.

Technologies Used:

- **Backend**: PHP, Laravel, REST APIs
- **Database**: MySQL

4. PRIME BPM

Worked on backend development using Laravel, focusing on API creation and integration for the PRIME BPM platform. Optimized existing code and APIs to enhance performance and scalability. Followed industry best practices for clean, efficient, and secure backend development.

Technologies Used:

- **Backend**: PHP, Laravel, mySQL, REST APIs

5. RAH (Rimple and Harpreet)

Developed an **e-commerce fashion website** using **Shopify**, focusing on **user login**, **authentication**, and **live sales** functionality. Implemented features for **appointment booking** and **CSV file import** for franchise management.

Technologies Used:

- **Frontend**: PHP, Shopify Framework
- **Backend**: PHP, Shopify Framework

6. McareExports

Worked on a WordPress-based pharmaceutical website, focusing on bug fixes and adding new features to enhance functionality.

Technologies Used:

- **Frontend**: PHP, WordPress, HTML, CSS, Bootstrap, JavaScript, jQuery, Ajax
- **Backend**: PHP, Woocommerce, wordpress
- **Database**: MySQL

Core Skills

Languages: HTML, CSS, JavaScript, PHP

Frameworks & Libraries: Laravel, WordPress, CodeIgniter 4, React, Next.js, Vue.js, AntD, Bootstrap

Databases: MySQL, PostgreSQL, MongoDB

API Integration: RESTful APIs, OAuth, JWT, **DocuSign**, **Google Cloud Document AI**, **Microsoft Azure**,

Open Bank, **PayPal**, **Stripe**, **Razorpay**, **Revolut**

Version Control: Git, GitHub

Design & Development: Mobile-First Design, CSS Grid, Flexbox, Cross-Browser Compatibility, Webflow

E-commerce Platforms: Shopify, WooCommerce

Optimization: Code optimization, API optimization

Tools & Technologies: Postman, Docker, Nginx, Apache

Education

Chandigarh University   Jul 2018 - Jul 2022
B.E-Computer Science

- GPA: 7.0/10

Languages

English, Hindi
